Online Course (Dentist and Team): 4 CE hours – AGD PACE Approved

ABOUT THE PROGRAM
Invisalign® Fundamentals is an introductory program for new Invisalign GP providers and their teams. This course is comprised of:
• Online self-instruction modules cover the basics needed to start an Invisalign case for doctors and their teams prior to attending the live course sessions
• A live, lecture/clinical education course for doctors
• A live, hands-on lecture/participation training course for team members

Invisalign Fundamentals online training overview:
• Invisalign Fundamentals online orientation prepares doctors and team members to maximize the Invisalign
• Fundamentals live course and help them understand all aspects of the Invisalign treatment process.
• Successful completion of a short quiz at the end of this training is required.

Invisalign Fundamentals live course overview:
• An in-person half-day course provides participants with the clinical and operational education necessary to begin treating a broad range of Invisalign patients.
• A separate session exclusively for team members covers relevant case submission topics and provides attendees practical, hands-on experience.

EDUCATIONAL OBJECTIVES
At the conclusion of the program the participants will understand how to:
• Identify ideal case types for Invisalign treatments
• Integrate all aspects of the Invisalign process into the practice
• Use the software that depicts a virtual set up of your planned treatment
