Incorporating Dental Implants Into Your Practice
At the Zimmer Biomet Institute Training Facility
Thursday, April 11, 2019 – Saturday, April 13, 2019

Course to be held in Parsippany, NJ
Incorporating Dental Implants Into Your Practice
At the Zimmer Biomet Institute Training Facility

Thursday, April 11, 2019 – Saturday, April 13, 2019 – 8:00am – 5:00pm daily

Course Faculty: Dr. Ziad Jalbout, Dr. Jason Kim, Dr. Mazen Natour, Dr. Michael Sonick

Course Location: Zimmer Biomet Institute, 399 Jefferson Road, Parsippany, NJ 07054

Credit Hours: 24 Continuing Dental Education Course Credits

Experience Level: Beginner. This course is designed for dentists who would like to begin placing implants.

Tuition: $2,000

As Real As It Gets

This comprehensive three-day program is designed to provide you with lectures, lab observation, and hands-on instruction on simulated-patient mannequins in a step-by-step format. Each learning station is equipped with a computer for accessing reference materials and has all simulated patient materials, including: radiographs, CT scans, and models that are specific for the exercises. The mannequins feature soft tissue and “bone” that have cortical and cancellous layers, soft tissue-lined sinuses and “wired” inferior alveolar nerves. The mannequins are designed to provide participants with a sense of treating a live patient.

About

New York University College of Dentistry and the Zimmer Biomet Institute team up to bring to you this extraordinary learning experience. With the knowledge and expertise of NYU instructors along with the "state-of-the-art" facilities at the Zimmer Biomet Institute in Parsippany, New Jersey, you will receive the knowledge, skills and confidence that are essential to a successful implant practice.

This course is supported in part by an educational grant from the Zimmer Biomet Institute.

Course Overview

Day One – Patient #1
- Implant dentistry overview
- Biological concept in implant dentistry
- Surgical treatment planning and anatomic review
- Surgical principals in implant dentistry
- Step-by-step implant placement
- Anesthesia in implant dentistry and surgical procedure
- Incision designs and techniques
- Suturing material and techniques

Day Two – Patient #2
- Bone grafting overview
- Fundamentals and biology of bone grafting technique
- Atraumatic extraction tools and technique
- Socket grafting materials and technique
- Guided Surgery: Software planning, lecture & hands-on

Day Three – Patient #3
- Surgical Treatment of Edentulous Mandibular Arch Lecture
- Surgical Lab
- Mandibular incision exposing mental nerve/foramen
- Level mandibular anterior ridge
- Interforaminal implant placement
- Mandibular implant overdenture with single attachments
- Maxillary implant overdenture with connecting bars
- Impression techniques: open tray, closed tray and snap-on
- Prefabricated vs custom abutment
- Cemented vs screw retained
- Connected vs splinted

“the instructors were able to teach at our level instead of showing us the most advanced cases they’ve done. the content was very relatable and i’m leaving feeling much more comfortable with implant dentistry as a whole instead of feeling overwhelmed and intimidated.”

- STEVEN HIPPELI, DMD

The simulated surgical and restorative mannequins are the nearest thing to working on an actual human patient as it gets. The mannequins have teeth that can be extracted, tissues that can be sutured, periosteum, sinuses, cortical and cancellous bone, as well as mandibles with a blood supply and innervations.

New York University College of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

ADA CERP® Continuing Education Recognition Program

The formal continuing dental education programs of New York University College of Dentistry are accepted by the AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement.

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (CERP) through joint efforts between Linhart Continuing Dental Education Program and Zimmer Biomet.

New York University is a member of the Association for Continuing Dental Education. The ACDE is the organization of continuing dental education providers associated with dental schools in the United States, Canada and Puerto Rico.
