ADULT
ORAL SEDATION DENTISTRY
3-day course | 25 credit hours
Banish patient fear forever
An astonishing 75% of the population suffers from dental anxiety. Learning sedation dentistry gives you the skills to better the lives of patients with dental phobias. Our Oral Sedation Dentistry course, taught by Anthony S. Feck, DMD and Leslie Fang, MD, PhD, offers everything you need to integrate sedation into your practice. You will study two levels of sedation, nine proven protocols, systems management for your team, and the science behind sedation. You’ll also engage in airway management training designed to build your confidence, and view videos of sedation patient experiences demonstrating step-by-step protocols, monitoring, patient assessment, and drug interactions.
 ✓ Learn seven factors you must know to confidently deliver oral sedation dentistry
 ✓ Understand ten crucial skills for communicating with a sedated patient
 ✓ Identify five keys to airway management using hands-on training
 ✓ Discover how to create advanced treatment plans for neglected mouths
March 2-4
Doctor ........................................ $2,941
DOCS Member .................................. $2,650
Team (per person) ................................ $853

ADVANCED SEDATION
MASTER SERIES
2-day course | 15 credit hours
Expand your patient base and broaden your knowledge
As a sedation dentist, your skills require constant renewal to ensure you’re providing patients with the best care possible. Maintaining and growing the skills you learned in Oral Sedation Dentistry is simple with our one-day refresher course. We recommend attending this course - taught by Anthony S. Feck, DMD, and Leslie Fang, MD, PhD - at least once every two years.
 ✓ Learn about the latest developments in oral sedation protocols and pharmacology
 ✓ Review airway management and patient assessment techniques that will help keep your patients safe
 ✓ Examine pharmacokinetics and pharmacodynamics to help you choose the best drug(s) and protocols for each patient
 ✓ Understand methods to increase or decrease sedation levels
March 3
Doctor ........................................ $1,289
DOCS Member .................................. $1,056
Team (per person) ................................ $886

DOCS Member .................................. $1,056
Team (per person) ................................ $886

Prerequisite: Oral Sedation Dentistry
This course is designed for doctors who have completed a minimum of 50 sedation cases and are interested in reaching a larger patient base.

RECERTIFICATION
ORAL SEDATION DENTISTRY
1-day course | 7.5 credit hours
Dentistry, medicine, science, and pharmacology are continually evolving

ACLS RECERTIFICATION
1-day course | 7.5 credit hours
Specially designed for dental offices
This one-day, hands-on course will update you on the latest advances in emergency preparedness. You and your team will leave with the skills and confidence required to respond to the most common dental emergencies, including respiratory failure, airway obstruction, cardiac problems, and anaphylaxis. Meets your ACLS recertification requirements.
