Rise above the one implant per week average.

Dentists, surgical assistants, office managers, hygienists and front desk staff all have an impact on practice success.

Get Certified And Take Your Practice To The Next Level!
Course Curriculum

- **Day One** - Both Clinicians and Staff in Attendance

**Morning Session**
- Why Implants
- Diagnostic procedures for best results
- Patient selection
- Patient exam and evaluation
- Patient education
- Case presentation

**Afternoon Session**
- Radiographic interpretation and anatomy
- Treatment planning
- Crown down treatment planning

- **Day Two** - Both Clinicians and Surgical Assistants (staff attend separate lecture)

Model procedures
- Review surgical tray and sterilization process
- Live Surgery Video with Q/A
  - Incision, flap reflection, alveoloplasty, osteotomy, grafting (soft and hard tissue), suturing
- Postoperative treatment
- Uncovering of implant fixtures
- Impressions or scans
- Seating and cementation

- **Day Two** - For Hygienists and Front Desk Staff

Learn to utilize implant videos with patients, and letters of recommendations from other implant patients.

Confidently discuss why dental implants are a beneficial treatment option, including pros and cons of the procedure and the long term benefits to the patient’s quality of life.

Review ALL of the steps of the patient’s implant restoration.

Gain the confidence to effectively transition the patient from the initial implant interview to the doctor’s implant treatment plan discussion.

Learn how to present the case plan, fee structure, insurance support and alternative financing.

Understand relaxed patient procedural scheduling, review of preoperative medication, instructions and postoperative care.
