OUR VIBRANT ACADEMIC COMMUNITY

- NYU College of Dentistry is the 3rd oldest and the most comprehensive oral healthcare center in the US, educating nearly 10 percent of US dentists.
- The College’s tripartite mission — Education & Training, Research & Innovation, and Patient Care — is advanced by 11 academic departments focused on improving the health of the highly diverse populations in New York City and around the world.
- Unique factors central to the DDS program include a strong foundation in the basic sciences, opportunities to collaborate with our world-renowned specialty faculty and researchers, and training alongside students in the Dental Hygiene program — the only such integration in NY State.

LOCATION & FACILITIES

NYU College of Dentistry is comprised of three buildings located on First Avenue, from East 24th Street to East 26th Street, in the heart of the NYU health sciences corridor.

HERMAN ROBERT FOX DEAN

Charles N. Bertolami, DDS, DMedSc

FACULTY
- 270 full-time
- 654 adjunct

STAFF
- 192 administrative

- 102 research

ENROLLMENT (2018–2019)
- 1,955 students (all programs)

ALUMNI
- 19,000+ worldwide

PATIENT CARE

WITHIN THE DENTAL CENTER, THROUGHOUT NEW YORK CITY, AND AROUND THE WORLD

- More than 300,000 patient visits are made annually to the College’s treatment centers.
- NYU Dentistry students provide care for between 10,000 and 12,000 patients per year on faculty-supervised rotations at local outreach sites throughout New York City and aboard the Dental Van.
- Approximately 200 students annually participate in the NYU Dentistry/Henry Schein Cares Global Student Outreach Program, bringing care to people in underserved areas at 23 outreach sites across 9 countries.
