Implantology, as well as other dental specialties, has been updating itself day by day with the use and application of new technologies to improve the results and predictability of restorative works.

Emfils takes you to NYU College of Dentistry for an exclusive Digital Implant Dentistry Training and Update Course, certified by NYU College of Dentistry, one of the most prestigious US universities.

In this course you will have the opportunity to get to know NYU College of Dentistry, one of the American universities that publishes scientific works around the world.
