AAS PRE-REQUISITE TRACK

Biology and Chemistry are pre-requisite courses that must be taken prior to entering the Dental Hygiene Program.

The Dental Hygiene Program offers pre-requisite courses of chemistry and biology at the College of Dentistry campus. If these courses are taken at another institution, an official transcript with a grade of a “B” or better in each course must be forwarded to the Dental Hygiene Office as proof of satisfying these pre-requisites.

Acceptable pre-requisite courses taken at NYU

TITLE	CR	CRS SUBJ/CAT#
Intro to Biology	2	DHYG1-UD097
Intro. to Chemistry	2	DHYG1-UD098

After proof of satisfying pre-requisites, students must notify Dental Hygiene Program in writing of the track they would like to enter (AAS two or three year, BSDH Track A).

***All accepted students must take a Writing Placement Exam through the School of Continuing and Professional Studies of New York University. Pending the results of your writing placement exam, you may be required to take individual writing courses listed below before registering for Writing Workshop I.** Exam scores are usually forwarded to the Dental Hygiene Office after two weeks of the exam date. You may contact our office at that time to receive your results.

- Effective Reading and Writing for College (*non-credit course*)
- Grammar Strategies (*non-credit course*)
- Intensive Writing (*optional non-credit* or 2 credit course – *ask your advisor about the non-credit course*)
- Mastering Correct English (*non-credit course*)

This exam may be waived, **by review**, for students entering the program intending to transfer two-courses, with grade “B” or better, of College-level English Composition.
