

# NYU Bringing Smiles School-based Dental Clinics

*Dental care for your child, right at school!*

**The NYU Bringing Smiles Program will be operating a dental clinic at your child's school this year.**

Our team, led by a pediatric dentist, provides **complete dental services** right **within the school**, including:

- **Check-ups, cleanings** and **x-rays**
- **Sealants** and **fluoride application**
- **Fillings** and **emergency care**
- **Referrals** to NYU Dentistry for braces and other **specialty services**

Seeing the dentist at school reduces the amount of time kids are away from the classroom and offers a **familiar, non-scary setting** for dental care.

You'll get a **full report** of your child's dental needs and treatment after each visit, as well as a phone call from the dentist to answer your questions.

**Every child with completed paperwork will receive dental care, regardless of insurance status.**

Bringing Smiles will be at your child's school every week for the entire school year.

**If you would like your child to participate, please use this code to fill out a consent form. >>**

There are **no out-of-pocket costs** for families.

Bringing Smiles is an approved Medicaid provider.

*To find out more, speak with your school's parent coordinator or school nurse.
